

ADITYA PRATAP SINGH

adityapratapsinghthb@gmail.com | +91 8708024854 | github.com/Aditya05-spec | linkedin.com/in/Aditya

SUMMARY

Full-Stack Software Engineer skilled in Java, Python, JavaScript, React.js, Node.js, and MongoDB. Experienced in building scalable REST APIs, deploying production applications, and implementing CI/CD pipelines in agile environments. Solved 800+ DSA problems (LeetCode 1714). Proven ability to collaborate on technical design, product roadmaps, and operational excellence. Hackathon winner with an entrepreneurial mindset and passion for customer-centric, high-quality software delivery.

EDUCATION

Chandigarh University, Mohali, Punjab

- B.E. Computer Science & Engineering (AI & ML) | CGPA: 8.37 | 2024 - 2028

Kendriya Vidyalaya No. 5, Gwalior, Madhya Pradesh

- Senior Secondary (PCM + Computer Science) | Percentage: 77.9 % | 2023

TECHNICAL SKILLS

- Programming Languages:** C, C++, Java, Python, JavaScript, TypeScript, SQL
- AI/ML:** Machine Learning, Agentic AI, RAG, LangChain, LangGraph, Prompt Engineering
- Databases & Vector Stores:** MongoDB, SQL, Neo4j, Qdrant, ChromaDB, Redis
- Cloud & DevOps:** Google Cloud Platform, Docker, Kubernetes, Git, GitHub, CI/CD, Linux
- Developer Tools:** VS Code, Postman, Google Colab, Jupyter Notebook
- Technologies/Frameworks:** React.js, Node.js, Express.js, Spring Boot, Microservices, FastAPI, Tailwind CSS, Firebase
- Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, REST API Design, Microservices, Agile/Scrum

WORK EXPERIENCE

CU-TBI (Technology Business Incubator, Chandigarh University) | July 2025 – Jan 2026 | Mohali, Punjab (On-site)

Full Stack Developer Intern

- Developed and deployed 3 production-ready full-stack web applications using React.js, Node.js, Express.js, and MongoDB, implementing scalable RESTful APIs and responsive user interfaces.
- Improved application performance by 25% through database indexing, query optimization, and API performance tuning, reducing response latency and enhancing scalability.
- Integrated Firebase Authentication and third-party APIs to enable secure user authentication, real-time data synchronization, and cloud-based storage solutions.
- Implemented CI/CD pipelines and assisted in application deployment, monitoring, and maintenance to support reliable production releases.

PROJECTS

Concentria – Data Consent Monitor | MongoDB, React.js, Node.js, Express.js, Firebase, Chrome Extension APIs, Tailwind CSS, PWA | Jun 2025 | [GitHub](#)

- Built a privacy-focused Progressive Web App and Chrome Extension to monitor browser permission changes across 8+ permission categories in real time.
- Visualized consent activity through a **categorized dashboard**, improving user awareness and transparency.
- Utilized Firebase for **real-time data synchronization and secure storage**.

Heart Disease Prediction System | Python, Scikit-Learn, Pandas, Numpy, Matplotlib | May 2026 | [GitHub](#)

- Built a supervised machine learning pipeline for heart disease prediction using healthcare datasets.
- Applied data preprocessing, feature engineering, and visualization techniques to prepare and analyze patient records.
- Compared multiple classification models and achieved **89% accuracy** with Random Forest using cross-validation.

CodePilot AI | React.js, FastAPI, LangGraph, ChromaDB, Ollama, Docker | Apr 2026 | [GitHub](#)

- Built a **multi-agent AI system** for repository analysis, code review, and documentation generation.
- Developed a **RAG pipeline** using ChromaDB for context-aware code search and question answering.
- Leveraged **GitHub APIs and LLMs** to analyze repositories and improve developer productivity.

ACHIEVEMENTS & CERTIFICATION

- Solved **800+ Data Structures & Algorithms (DSA)** problems on LeetCode; achieved a rating of 1714, demonstrating strong problem-solving and rapid learning abilities.
- Winner – Tekathon 4.0 Hackathon**, Chandigarh University (Sept 2025)
- Finalist – Code Fusion 2.0 Hackathon**
- Finalist – Zinnovatio 2.0 Hackathon**
